**Ongoing Short List (updated 4-2-21)**

**Yellow, picture to be added. BLUE, on auction site also Green, has been SOLD**

**NOTE:** This list is different than previous short lists in that it will be posted continuously on my web site ([www.colcartinc.com](http://www.colcartinc.com)) and maintained on an ongoing basis. Listed here are new items and those that are too few to add to my web site lists. Additions and subtractions will occur as time permits. Anything listed here may be pulled without warning. If there is anything here of interest, don't delay ordering. I will hold ordered items toward accumulating enough to spread out shipping cost to a reasonable level if necessary. Those on my mailing list get first shot at this stuff, what doesn't sell will be pulled off the short list and thrown onto an Internet auction site or the local gun shows.

**Caliber-Loading.....Headstamp-Description.....Price each**

**American (Inch) Centerfire Rifle**

22 J.G.R. Semi-Rimmed	N.P.E.	Plain base with a brass primer. I'm told these were never sold as loaded ammo, but were intended to be offered for hand loaders only. Box copy available.....(bx)	35.00

Table with 3 columns: Description, Headstamp, Price. Items include 50-50 M65 Soldered case LDRN and 40-40 M73 Explosive.

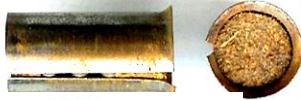

Miscl.

Aviation Gun recharger. This little beauty is of Russian origin for use of charging (lock & load) of aviation gun, AM-29, not known if fixed wing or helicopter. Box was dated(?) T-21-73, case has an electric primer. Evidently a high intensity blank. Shown with a common 30-06 for size comparison.

Table with 3 columns: Description, Headstamp, Price. Item: Cannon primer 8 lobe mouth closure. Headstamp is 929 XV-1 T.S. MI Electric primer

40 Halls Air Shotgun These consist of a rolled steel case, flared at one end to form a "rim", shot load is held in place between two cork wads. Long obsolete item once made in Beecher, Illinois a lot of years ago.

45-70 Miniature dummy. The case is turned brass, the bullet is lead. Where the primer would be is an indent like a shallow blind Boxer primer pocket.

9mm Walking Stick (Cane gun) . ELEY . 9 M/M . W.S. (Shot held in place by roll crimp)..(6) 22.50

9mm Flobert shot. Raised G headstamp on a copper case. Very old item.....(1) 15.00

37mm Ferrett CS gas projectile cutaway. This a demo item made by AAI some while back, the plastic colors are blue for the nose cap, custard yellow body and deep red for the gas & dye load which in the actual live round is in liquid form.....(1) 25.00

30-06 Thompson-Hoffer sub chamber (used) allowing the use of 22 RF to train recruits in the use of Springfield rifles. These have been selling on E-Bay for \$ 80.00. ....(1) 50.00

60mm M4 Mortar ignition ctg. by W.R.A.C0. ....(1) 30.00

Wildcats: Most of these came to me as a batch, the identification of each item is from a label with the cartridge. I have no way to positively confirm that the identification is exactly right for the particular item. Never heard of some of these. I offer them as identified on as noted on their case or package.

Table with 4 columns: Alleged caliber, Headstamp, Available, Price

22-4000 Sedgley	Formed case	W.R.A.CO. 7 M-M (nickel primer. From Tom Dunn's stock) .....	(bx)	3.00

**Shotshells** I don't normally carry shotshells as a rule, but thought these few might be of interest due to their rarity.  
 12 Gauge. New primed empty **N.A & Co PATENT No 12** (copper primer, 2 1/2" length all brass.) .....(4) 15.00

**Quality Cartridge:** I have a list of cartridges loaded by Q-C awhile back. They no longer load specialty calibers, concentrating on making cases only. What I have are original Qual-Cart loadings. I can send you a list as an e-mail attachment on request.

**AHR (American Hunting Rifle)** list available, can be sent as an e-mail attachment.

**Pinfire list:** I have a list of metallic pinfire (no shotshells) available on request.

**A-Square** is also an obsolete brand, now available. If you would like a list of A-Square headstamped cartridges one can be sent as an e-mail attachment.

**Pre 1940 U.S. arsenal and military contract 30-06.** This is a listing of pre-1940 U.S. arsenal and military contract 30-06 rounds available. Can be e-mailed as an attachment.

**DWM coded headstamp list:** This list has all of what I have with the DWM head stamp codes. I can send a copy of this list via e-mail attachment.

**E-mail attachment orders are welcome** HOWEVER, with the on-off problems I've had with e-mail reception it may not be a bad idea to request a verification that I got it. Just a simple **PLEASE CONFIRM** on the order sheet and I will get back to you assuring you it did get here. If you do order by snail mail please add the same **request receipt confirmation**. Also if you send a snail-mail order please include **your e-mail address** if you have one.

**This list is ongoing. It changes almost daily.** If at any time you want an up to date copy **JUST ASK**. I'll send a current copy as an e-mail attachment the same day.
